 Williams

### A CLASS ABOVE THE REST

Nestled in a lushly landscaped garden district, Uptown Houston is the nation's largest business center outside an historic core. Boasting 23 million square feet of commercial office space, it compares in size to downtown Pittsburg and Denver. A convenient and amenable place for workers, Uptown Houston is located in close proximity to Houston's two major airports, the Medical Center, Reliant Center Complex and other major business centers.

With an impressive portfolio of Class A office space, the signature icon of Uptown Houston's spectacular skyline is Philip Johnson's Williams Tower. Towering 64- stories into the Houston skies, Williams Tower is one of the most photographed buildings in the world.

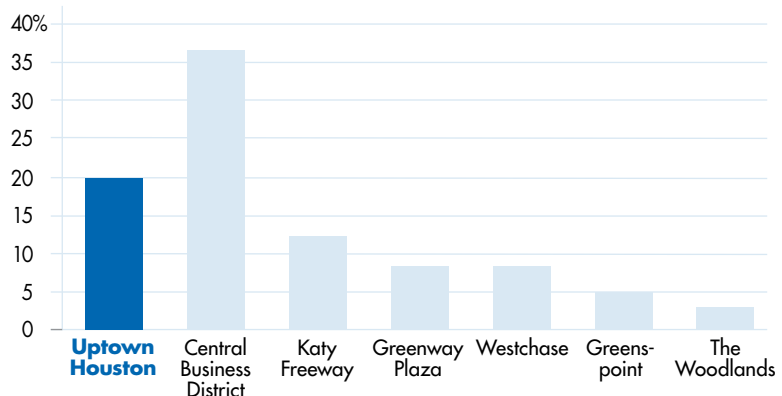

Encircled by the best Houston has to offer in hotels, restaurants, shops, spas and entertainment venues, Uptown Houston provides a welcome retreat for those who work here.

### OFFICE FAST FACTS:

- 23.6 million square feet of office space
- 17th largest business district in the United States
- Represents more than 11 percent of Houston's total office space
- 22 percent of Houston's total "Class A" office space
- Home to approximately 2,000 companies
